

PROOF OF EFFICACY

SGS has its administration in Switzerland and is the world's leading company for inspection, verification, testing and certification. SGS operates test centres and laboratories worldwide.

Guangdong Institute of Microbiology (GDIM)
The institute was founded in 1964. It is one of the leading institutes in the field of microbiology and is recognised in medical circles around the world.

In the following tables, the SGS and the Guangdong Institute of Microbiology (GDIM) confirm the effectiveness of MSP systems in the areas of particulate matter, gas, bacteria and viruses:

Degree of cleansing after 1 - 2 hours up to:

Particulate matter (Tested with: particle sizes PM _{2.5} and PM _{0.3})	99.94 %
Gas (Tested with: formaldehyde)	79.90 %
Bacteria (Tested with: staphylococcus albus, escherichia coli, staphylococcus aureus)	99.59 %
Viruses (Tested with: influenza A virus H1N1, influenza A virus H3N2)	99.46 %
